COLLECTION OF MATTRESSES №2

COMFORTABLE FEELINGS

Mattresses with orthopedic effects guarantee a comfortable and high-quality sleep. Scientists have conducted research, demonstrating that approximately one-third of a person's life is spent asleep.

Restless nights can not only bring discomfort and morning fatigue but also reduced productivity, depression, and back pain.

To avoid such issues, it's important to proactively consider purchasing a quality mattress. An ideal option is a mattress with orthopedic effects.

Orthopedic mattresses are designed to properly support the spine, allowing the body to fully relax. Think of them as a supportive friend, gently cradling your body to ensure optimal alignment and comfort throughout the night. Just like a well-crafted piece of furniture in your living room, an orthopedic mattress is meticulously engineered to provide both support and comfort, ensuring that you wake up feeling refreshed and rejuvenated each morning.

OM-30

A foam mattress, crafted to meet global quality standards, will gift you luxurious sensations during sleep! The combination of breathable bamboo fabric and latex foam aids in thermoregulation, while the highly elastic, durable carbon foam boasts antibacterial properties. Such mattresses are suitable for enthusiasts of luxury and comfort, as well as families with children.

OM-30

The flagship of Collection No. 2 is the OM-30 mattress.
Comfort, convenience, and luxury seamlessly blend in this mattress.

OM-22

This mattress is designed for complete relaxation. With a combination of three types of high-elasticity foam - Cloud Foam, latex, and carbon foam - it allows your body to fully relax and ensures a restful sleep. The top layer of bamboo with Aloe Vera effectively manages moisture control.

OM-22

The combination of latex and high-elasticity foam provides both elasticity and comfort to the mattress simultaneously. It is designed for young and active individuals.

Type	Height	Maximum Load	Firmness	Packaging Type
Foam Mattress	22 cm	160 kg	Above average (3.5 out of 5)	Rolled

OJ-21

The high-elasticity foam of increased firmness perfectly contours the body, while memory foam allows relaxation and returns the mattress to its original state, ensuring a long service life. The combination of Argan Oil and Aloe Vera provides the mattress with an antibacterial effect and prevents the spread of harmful insects.

OJ-21

A unique mattress designed for urban dwellers, allowing stress relief and providing a long and restful sleep.

OG-19

A comfortable foam mattress that combines two types of foam: a thin layer of EL foam and a wide layer of high-density foam. This tandem is harmonized by a knitted fabric with Aloe Vera extract, which eliminates the sweating effect, regulating the temperature and moisture of your body.

OG-19

A grand and luxurious mattress where tradition meets cutting-edge technology. We guarantee you'll fall in love with this mattress after the first night.
